Design Options – Wikis

Purpose

The purpose of a wiki is to provide a space for students to share information and collaborate with each other by asynchronously updating the wiki page(s). Wikis have a built-in function to track change history for any single wiki page.

Canvas Design Option

If you used the 'wiki' tool in Blackboard, use an editable 'Content Page' in Canvas instead.

More Details

When creating a content page, choose the edit page option: "Teacher and students can edit the page".

FES 453 > Pages > Discussion Leader Sign-Up
