

This PDF file is provided for informational purposes. Please submit your proposal electronically using the online course proposal form (<http://ecampus.oregonstate.edu/faculty/courses/>).

Propose a New Ecampus Course

Use the form on this page to propose a course for delivery online through Ecampus. This might include a course currently taught on campus, but not yet offered online. Or, this might include a course that is not yet taught on campus but is in the process of being approved via the university's CAT II process.

Note: Please read the [new course proposal instructions](#) before submitting a new proposal.

If your course is already offered online, or if you were looking for the migration form, please navigate to the correct form on our [course proposal home page](#).

Red asterisks (*) indicate required information.

*Subject Code:

*Course Number:

*Credit Hours (e.g. 3 or 3-5):

Course Description

*Please indicate if this course is crosslisted. Yes No Don't Know

(i.e. 4/500, sec X400, ENT/BI/TOX)?

*Is this course part of a sequence? Yes No

Which term(s) is your course offered?

Fall

Winter

Spring

Summer

Unsure

*Number of students per term:

***Is this course part of the bacc core?** Yes No

***Is this a WIC course?** Yes No

***Is this a graduate level course?** Yes No

***Who is the audience for this course?**

***Is this course required for an Ecampus program?** Yes No

Please enter the contact information for your academic unit's approval authority (i.e. School or Dept Head)

***First name:**

***Last name:**

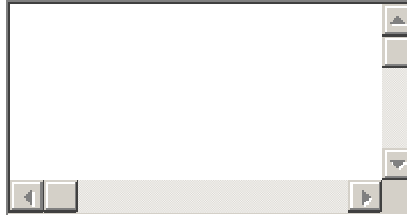

***Email:**

***Academic Unit (i.e. School or Department):**

***Has the faculty course developer completed the Ecampus Developing an Online Course Workshop?** Yes No

***How will the course design include opportunities for active learning?**

***How will students interact with content? The Instructor? Each other?**

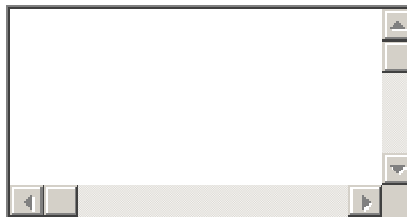

***Are you interested in working with Ecampus multimedia to create new custom media content for this course (i.e. 3-D animations, video content, voice-over screen mini-lectures)?**

Yes No

***Are you interested in using publisher provided resources?**

Yes No

If yes, which resources do you plan to use vs. which will you need to develop? (e.g. "I will use publisher provided quizzes for weekly knowledge checks, but I will develop learning activities, weekly video intros, homework assignments, and the final exam," or "I will use MyMathLab for practice activities and quizzes, but I will develop voice over screen mini lectures, group projects, and exams.")

***Are you interested in creating learning modules for this course that could also be shared openly via [Open Oregon State](#)?**

Yes No

(Learning modules might require extra time commitment by the faculty course developer; additional development funding is available for the creation of these modules.)

Funding implications: Funding level would depend on scope of learning module proposal - we'd probably need to follow up for more detail/planning. We may also need more time for development, depending.
