

Level up your skills with Instructor-led training, online certificates, and individual courses to enhance your expertise as educators across diverse groups and settings.

Certificates

E-Learning Certificate:

This comprehensive program provides you with broad exposure to principles and applications of e-learning and instructional design. Great for educators of all levels, trainers and those with a desire to improve their skills in online delivery of learning content. [Cost, dates and more details are available here](#)

E-Learning Experience Design Certificate: (LXD Certificate)

Oregon State University is at the forefront of online education, and our renowned College of Education has been working with educators in Oregon and beyond for almost one hundred years. This program will allow you to develop next-level skills to advance your online education materials. [Cost, dates and more details are available here](#)

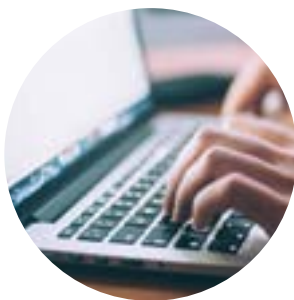

Informal Learning in Museums Certificate:

Informal learning is all about deciding what, where and how we want to learn over the course of our lifetimes. It's the learning that takes place all the time, outside of the classroom, no matter how young or old you are. Informal Learning in Museums Professional Certificate is an innovative program that immerses museum, zoo, aquarium and science outreach professionals and volunteers in informal and free-choice learning theories. [Cost, dates and more details are available here](#)

Individual Courses

Articulate Storyline/Rise: In this six-week course, you'll learn to build interactive, online modules using Articulate Storyline and Rise. While the focus of this course is on learning the mechanics of Storyline and Rise, you will also apply and discuss best practices for eLearning including effective use of audio, accessibility, gamification strategies, and mobile-friendly design. [Cost, dates and more details are available here](#)

Teaching Online: A Guided Course for Teaching Using Technology
Online instruction does not need to be painful or frustrating. Learn ways to provide support to your students remotely without re-inventing the wheel. Work with educational peers, share ideas and support one another as you investigate the art of online instruction. All levels of expertise welcome. 4-week short course.
[Cost dates and more details are available here](#)

Somos Lectores Teaching in a Bilingual Classroom
(Fall of 2020) Grades 2-5
Advanced proficiency in Spanish is required to enroll in this course, as it will be conducted bilingually. This course is designed for current dual/bilingual language educators that want to learn and engage in biliteracy strategies to promote students' linguistic repertoire.
